

COMP1531

Software Engineering Fundamentals

Week 1
Course Overview

Welcome !!!

— — —

- Welcome to COMP1531 - Software Engineering Fundamentals
- Today
 - Discuss the structure of the course
 - Discuss software engineering
 - Learn some JavaScript

Teaching Staff

— — —

- Shaveen Singh
 - PhD in Information Technology
 - Course Convenor/Lecturer-in-Charge for 26T2
 - Research focus on learning analytics, HCI, and AI in education.
 - Originally from the Fiji Islands

Teaching Team

- Also 35 tutors
- Amazing admin team
- Industry sponsorships

General Course Overview

- **Teaching Strategies**

- Lectures
- Tutorials
- Labs
- Major Project
- Help Sessions
- Final Exam

Assessments

— — —

Item	Weighting
Labs and Quizzes	10%
Group Project	45%
Final Exam	45%

Teaching Strategies

Lecture

- 2 x 2 hours per week
- Schedule listed [here](#), showing live stream links to Youtube.
- Slides for the lectures, and the recordings uploaded later, found on the [course page](#).

Teaching Strategies

Tutorial

- Tutorial schedule and meeting links/locations can be found on the [timetable](#).
- Tutorial content can be found on the [course web page](#)
- Tutorials attendance and participation indirectly contribute to your major project mark (see project spec).

Teaching Strategies

Labs & Quizzes

- Lab schedule and meeting links/locations can be found on the [timetable](#).
- Lab content and Quizzes can be found on the [course page](#).
- Labs & Quizzes contribute 10% of your final grade
- Labs & Quiz need to be submitted weekly.
- Labs are completely automarked, and you can use your lab time with the lab assist to get help.

Teaching Strategies

Major Project

- The major project is based on individual marking within a bigger group - more on this later
- This project will be done in groups of 4-5.
- Group Preference form is available (check Week 1 Announcement)
- The first iteration of this project will be released soon and is due in Week 3

Teaching Strategies

Help Session

- Help sessions are "drop-in" sessions where you or your group can get further assistance outside of class time.
- Help Sessions begin in week 2.
- Mini-help sessions begin in Week 1.
- Schedule listed [here](#).

Teaching Strategies

— — —

Final Exam

- The final exam is a **3-hour invigilated exam** in person at CSE labs during exam period at the end of the term.
- The exam runs in a closed environment (no internet) but with relevant documentation provided, with no AI assistance allowed.
- The exam will be based on the content of the course, including lectures, tutorials, labs, and the major project.
- A mark of **at least 40%** on the final exam is required to pass the course.

Getting Help

If you need help throughout the course, seek it in this order:

- Step 0: Your team
- Step 1: Discourse forum (Course website)
 - Look for answers before posting
 - Note Shaveen does not directly monitor
 - You were invited "z5555555@unsw.edu.au"
- Step 3: Help Sessions
- Step 4: Emailing Tutor / Assistant Tutor
- Step 5: Lecturers/Admins cs1531@cse.unsw.edu.au

Getting Started

Any operating system is fine for this course.

- CSE Lab Machines / [VLAB](#) : Ready to go!
- Mac OSX: Follow the [getting started guide](#).
- Windows: Follow the [getting started guide](#).

Technology In The Course

The key technologies we use in the course are:

- Course Website (our home!)
- Discourse (forum)
- GitLab (where your work lives)
- Microsoft Teams (for project communication and online class)

The key development software we will use:

- git (GIT version control)
- node (Javascript - NodeJS)

[Full instructions relating to the installation can be found in our guide here.](#)

Important Notes

— — —

- We can only help you if you communicate with us
 - Is your group bad?
 - TELL US
 - Is there a problem with your iteration/marks?
 - TELL US
 - Within 7 days of the deadline
- We WANT to help you!
 - But we can't if you don't tell us what's wrong
- We are a part of your team, and we want you to succeed
 - We will do everything we can to help you succeed, but we can only do it if you work with us

Other Important Info

— — —

- UNSW Services
 - [Health and Wellbeing](#)
 - [Special Consideration](#)
- Generative AI
 - [UNSW Guide for Uni Students](#)
- ELS
 - [Information](#)

Course Changes

— — —

- We make changes in the course based on feedback from previous instances
- This term:
 - More practice examples
 - In lectures
 - More practice resources on course website
 - Major project
 - Reduced from 4 to 3 Iterations
 - More practice exam questions (Week 10)
 - ELS
 - More explanation on slides
